

REMARKS

The above amendatory Action has been taken under the provisions of 37 CFR 1.312 in order to correct matters of form.

Namely, some claims have been amended to correct obvious errors and to provide consistent antecedent support throughout the claims. Additionally, Claim 40 which has been cancelled by the Examiner as dependent on a cancelled claim has been resubmitted as Claim 75 which is dependent from pending Claim 17.

Since the amendments which have been made are solely of a formal nature, they require no detailed consideration on the part of the Examiner and it is requested that they be entered under the provisions 37 CFR 1.312.

Respectfully submitted,
